Issued under the authority of the Health Education and Training Institute Higher Education Governing Council

Health Education and Training Institute Higher Education Academic Policy Development Framework Policy

Policy Statement

This document provides the framework for the development, approval and publication of Health Education and Training Institute Higher Education academic policies, procedures and guidelines. The purpose of the policy is to establish standards and formats that make the overall suite of policies easy to access and understand, consistent with each other and also to ensure that they are kept up to date.

Aims and Objectives

1. Health Education and Training Institute Higher Education wide policies, procedures and guidelines provide the framework by which Health Education and Training Institute Higher Education requires its academic governance operations to be conducted. They are the basis on which members of the Health Education and Training Institute Higher Education community are expected to manage the academic affairs of Health Education and Training Institute Higher Education. They also reflect, as appropriate, relevant NSW Health policy directives.

Overview

2. Health Education and Training Institute Higher Education has adopted a standard procedure for the development, approval, publication and review of these documents. All individuals involved in the development, approval and implementation of Health Education and Training Institute Higher Education wide academic policies, procedures and guidelines are required to comply with these procedures.
3. In addition, every proposal to develop a Health Education and Training Institute Higher Education academic policy must have a senior sponsor who will bear responsibility for implementing their sponsored policies across Health Education and Training Institute Higher Education; effectively communicating the policies; reviewing

and updating the policies regularly; and monitoring the policies for compliance and integrity.

4. This policy should be read in conjunction with the:
 - a. Academic Policies Framework;
 - b. Academic Governance Policy.

Definitions

5. For the purposes of this policy:
 - a. Governing Council: means the governing council of the Health Education and Training Institute Higher Education.
 - b. Academic Board: means the academic board of the Health Education and Training Institute Higher Education.
 - c. Teaching and Learning Committee: means a committee of the Academic Board.
 - d. Policy: a statement that must be complied with and implemented that sets out Health Education and Training Institute Higher Education's official position in relation to a particular academic governance issue including any mandatory requirements.
 - e. Procedure: a statement that sets out Health Education and Training Institute Higher Education's standard and required practice for implementation of a Health Education and Training Institute Higher Education academic policy.
 - f. Guideline: a statement that establishes best practice on how Health Education and Training Institute Higher Education academic policies and procedures might best be implemented or applied. Sound reasons must exist for departing from a guideline.

Procedures

6. Health Education and Training Institute Higher Education academic policies, procedures and guidelines must be approved by the Governing Council on the recommendation of the Academic Board after endorsement of the Teaching and

Learning Committee using the Health Education and Training Institute Higher Education policy approval process.

7. The general principles that apply to the development and publication of Health Education and Training Institute Higher Education academic policies, procedures and guidelines are that the documents:
 - a. have been made available for consideration and comment by those who may be affected by them prior to them being submitted for approval;
 - b. are written in a plain English style that is concise and easy to understand;
 - c. are practical and present requirements clearly and logically in order to facilitate understanding and compliance;
 - d. are consistent with each other and comply with relevant statutory and relevant NSW Health requirements that apply to Health Education and Training Institute Higher Education;
 - e. are readily available and accessible to all people who may have an interest in or be affected by them;
 - f. have a designated authoring portfolio and contact responsible for maintaining the currency of the document, undertaking periodic review, and responding to requests for clarification or interpretation;
 - g. are reviewed regularly and are kept up to date.
8. Where an amendment to a policy or procedure is of a minor nature or reflects a specific statutory requirement, the time and extent of consultation may be limited. However, new policies and procedures, major amendments and periodic reviews must include a reasonable period of general exposure to enable those affected or interested to provide comment.
9. The general principles that apply to the application and interpretation of Health Education and Training Institute Higher Education's academic policies, procedures and guidelines are that:

- a. they are to be implemented and enacted in a fair and consistent manner, having regard to stated requirements and their spirit and intent;
- b. regard must be paid to the overall policy framework of Health Education and Training Institute Higher Education, of which the academic policies form part, and the provisions of all relevant NSW Health policy documents and particularly those with universal application such as the NSW Health Code of Conduct.

Copyright

10. No policy, procedure or guideline is to contain copyright material belonging to a party other than Health Education and Training Institute Higher Education without the express written permission of the copyright owner for the use of the material in the document. The permission obtained from the copyright owner must give Health Education and Training Institute Higher Education the right to publish the material on the Health Education and Training Institute Higher Education website indefinitely or for a specified duration.
11. If copyright material is being used, the document being published must include an acknowledgement of the owner and contain a statement to the effect that the material is being reproduced and communicated with the permission of the copyright owner.

Policy Feedback

12. Feedback from Health Education and Training Institute Higher Education staff and students about content is important to ensuring the relevance of policies, procedures and guidelines. Feedback on existing documents can be provided at any time to the relevant author or contact.

Initial Policy Development

13. Where a new policy, procedure or guideline is proposed to be developed, prior consultation must occur with the Academic Board and must include brief details as to the nature and purpose of the new document, the anticipated timeframe for development, and the name of the author and contact. Consideration must be given to:
 - a. The type of document required: policy, procedure or guideline;

- b. The resource (human and financial) implications of the proposal;
- c. The implications for stakeholders such as local health districts, professional, accrediting and regulatory bodies and other Health Education and Training Institute Higher Education partners;
- d. The stakeholders to be consulted;
- e. Whether a new document is required or could the objective be achieved by amendment to an existing document;
- f. Whether there will be significant implementation and/or monitoring implications.

Policy Approval

14. All Health Education and Training Institute Higher Education academic policies, procedures and guidelines must be approved by the Governing Council on the recommendation of the Teaching and Learning Committee and the Academic Board using the Health Education and Training Institute Higher Education policy approval process.

Roles and Responsibilities

Policy Implementation

15. All Health Education and Training Institute Higher Education policies, procedures and guidelines must have an implementation process. Implementation often requires changes to current practices and it is the policy sponsor's responsibility to ensure that policy requirements are effectively communicated to staff and students.

Policy Review

16. All policy and related documents must have a set review date, usually not greater than three years from the date of publication or re-publication. The review must be initiated at that point in time.
17. The essential purpose of a review is to examine whether the policy has achieved its objectives and is still relevant and useful to the needs of Health Education and Training Institute Higher Education.

Policy Publication

18. Health Education and Training Institute Higher Education policies, procedures and guidelines must be published on the Health Education and Training Institute Higher Education website using the approved template format.
